PROJECTS:

Excel:

1. **E-Commerce Sales Analysis** | Excel | Pivot Table | Power Query | [GitHub Repo](#) |
 - Harnessing data to optimize sales strategies. Analyze trends, customer behavior, and product performance for informed decision-making. Resulting business growth by approximate 25% through actionable insights.
2. **Financial Domain - Bank Loan Analysis** | Excel | Interactive Dashboard | [GitHub Repo](#) |
 - Bank Loan Analysis: Employing data analytics to assess credit risk, repayment trends, and customer behavior. Enhancing financial decision-making by approximate 30% for optimized loan management and risk mitigation in the banking sector.

Power BI:

1. **Business 360 (Finance, Sales, Marketing, Supply Chain, Executive) - Brick & mortar and e-commerce**
| Power BI | SQL | Excel | Dax Studio | [GitHub Repo](#) | [Live Dashboard](#) |
 - At AtliQ Hardware, built a 360° Power BI analytics solution. Delivered Finance, Sales, Marketing, Supply Chain, and Executive dashboards, enabling actionable insights and improving decision-making by an estimated 25%..
2. **Global Superstore Analysis (Sales, Forecast, Decomposition Tree, Comparison)**
| Excel | Power BI | Power Query | [GitHub Repo](#) | [Live Dashboard](#) |
 - Analyzed global superstore sales trends using Excel and Power BI, forecasted future performance and conducted in-depth decomposition, boosting strategic insights by approximate 20% and enhancing decision-making capabilities.
3. **T20 World Cup 2022 (Overview, Batsman Stats, Bowler Stats)** | Excel | Power BI | [GitHub Repo](#) | [Live Dashboard](#) |
 - Offering a dynamic overview, detailed batsman statistics, and bowler performance insights. Visualizing cricket data to unveil trends and player contributions, enhancing the understanding of T20 World Cup narrative.

SQL:

1. **Consumer Goods Ad-Hoc Insights (AtliQ Hardware)** | SQL | MySql | Excel | [GitHub Repo](#) |
 - AtliQ Hardware, a top computer hardware producer in India, seeks improved data insights for swift, informed decisions. Despite global expansion, there's a drive to enhance data-informed strategies for efficient management.

Python:

1. **Diwali Sales Analysis** | Excel | Python | Jupyter Notebook | [GitHub Repo](#) |
 - Unveiling trends and patterns in festive sales data. Leveraging Python for comprehensive insights, this project enhances decision-making for optimizing Diwali marketing strategies and maximizing sales outcomes.
